Exhibition Specializing in Industrial
Robots and Automation Systems

ROBOT TECHNOLOGY JAPAN 2022

DATE

2022.6.30^{THU} ▶ 7.2^{SAT}

VENUE

Aichi Sky Expo (Aichi International Convention & Exhibition Center)

TIME

10:00~17:00

FEE

1,000 yen

Free for pre-registers,
overseas visitors, and students

Let's find the future of automation systems, logistics, food and packing industries!

[Organizer] News Digest Publishing Co., Ltd. [Co-organizer] Aichi Industrial Distributor's Association

Greetings

ROBOT TECHNOLOGY JAPAN (RTJ) 2022 was held for the first time at Aichi Sky Expo from June 30th (Thu.) to July 2nd (Sat.), 2022 under the main theme of “Let’s find the future of automation systems, logistics, food and packing industries!”

We would like to express our deep appreciation for all your support and participation.

The show attracted 202 companies and organizations as exhibitors with 1,096 booths, using Hall B, C and D from Aichi Sky Expo. The number of visitors reached 41,880, exceeding our target of 30,000.

The next RTJ is scheduled from July 4th (Thu.) to July 6th (Sat.), 2024 at Aichi Sky Expo (3 days). We will make every effort to further improve the contents for RTJ2024. We would appreciate your continuous support and cooperation.

News Digest Publishing Co., Ltd.
Aichi Industrial Distributor’s Association

Name	ROBOT TECHNOLOGY JAPAN 2022
Theme	Let's find the future of automation systems, logistics, food and packing industries!
Venue	Aichi Sky Expo (Aichi International Convention & Exhibition Center)
Date	June 30th (Thu.) ~ July 2nd (Sat.), 2022 (3 days)
Time	10:00~17:00
Entrance Fee	1,000 yen for general domestic visitors / 500 yen for more than 10 visitors group (Free for pre-registers, overseas visitors, and students)
Organizer	News Digest Publishing Co., Ltd.
Co-organizer	Aichi Industrial Distributor's Association
Supporting Organizations	Ministry of Economy, Trade and Industry Aichi Prefectural Government (random order)
Cooperating Organizations	Japan Robot Association/Japan Factory Automation & Robot System Integrator Association, Japan Machine Tool Builders' Association, Japan Machine Accessory Association, Japan Fluid Power Association, Japan Precision Measuring Instruments Manufacturers Association, Japan Machine Tool Distributors Association, Japan Institute of Material Handling (random order)
Exhibits	Vertically articulated robots, Horizontally articulated robots, Parallel-linked robots, Orthogonal robots, Collaborative robots, Other industrial robots, Gantry loaders, AGVs/AMRs, Automated warehouses, Sorters, Materials handling equipment, Picking systems, Other logistics equipments, Hands, Robot components, Peripheral, Sensors and control equipments, Software, AI and Internet of Things related equipment and systems, Robot-mounted machinery and equipments, Automation technologies, etc. ※Non-industrial robots like service robots and nursing care robots are not included.
Usage	Welding, Polishing, Handling, Inspecting, Painting, Deburring, Transportation, Special operations, Demolding, Assembly, Soldering, Power-assisted, Packaging, Cleaning, Picking, Related systems of improvement of the production-efficiency and labor-saving, etc.
Scale of Exhibition	Number of exhibitors : 202 Number of booths : 1,096 ※3.0 m×3.0 m (9.0 m ²) per booth
Number of Visitors	41,880
Events planned by organizer	<ul style="list-style-type: none"> ●Special session 6.30 How to Use Robots in the Future ●Collaborated event 7.1 Sler's Day in Aichi ●Special Seminars 7.2 Learning Robot Utilization Methods from New Field ●Industrial Robots Experience Zone

Scale of Exhibition

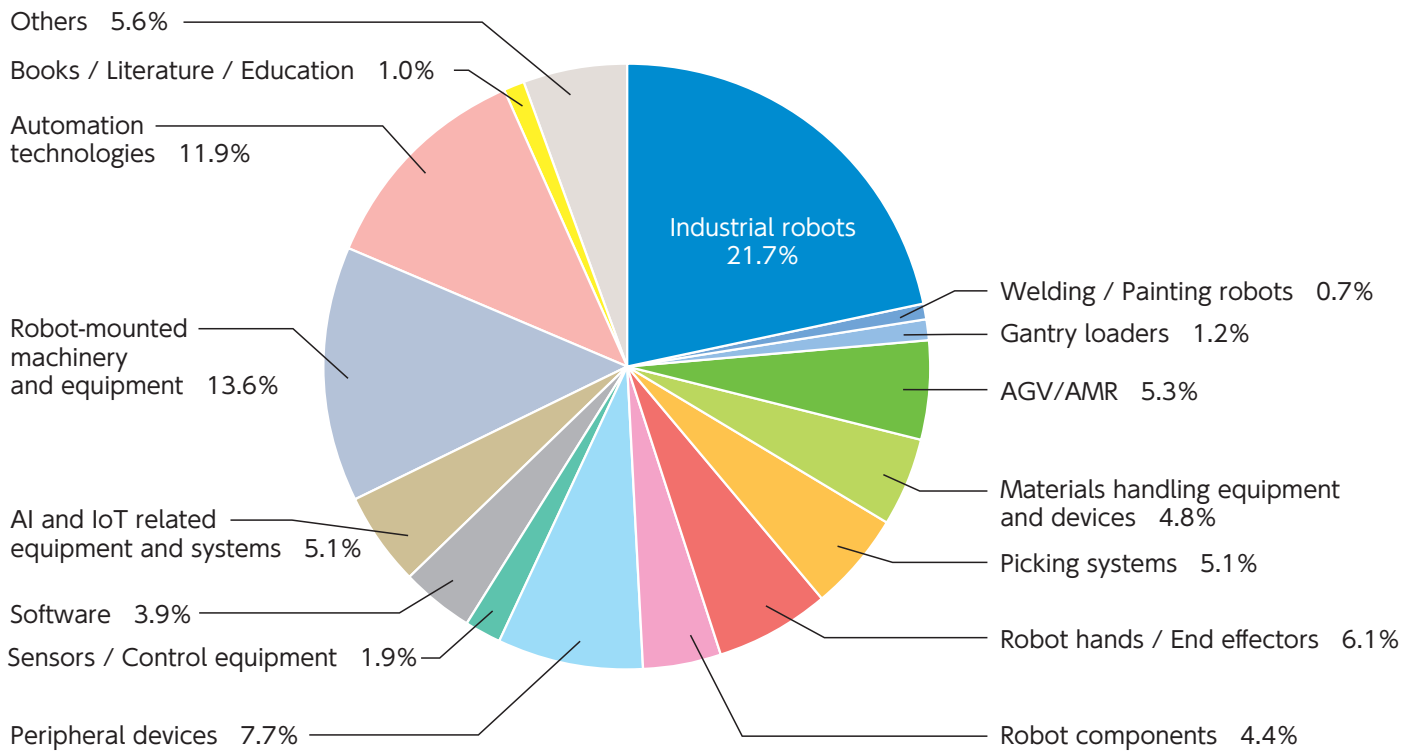

The debut exhibition was held in Hall B, C, and D of the Aichi Sky Expo.

The number of exhibitors was 202 companies and organizations with 1,096 booths.

Number of exhibitors	Number of booths
202 companies & organizations	1,096 booths

※3.0 m×3.0 m (9.0 m²) per booth

Exhibit Ratio by Category

Exhibits	Percentage
Industrial robots	21.7
Welding / Painting robots	0.7
Gantry loaders	1.2
AGV/AMR	5.3
Materials handling equipment and devices	4.8
Picking systems	5.1
Robot hands / End effectors	6.1
Robot components	4.4
Peripheral devices	7.7
Sensors and control equipment	1.9
Software	3.9
AI and IoT related equipment and systems	5.1
Robot-mounted machinery and equipment	13.6
Automation technologies	11.9
Books/ Literature / Education	1.0
Others	5.6
Total	100.0

Number of Visitors

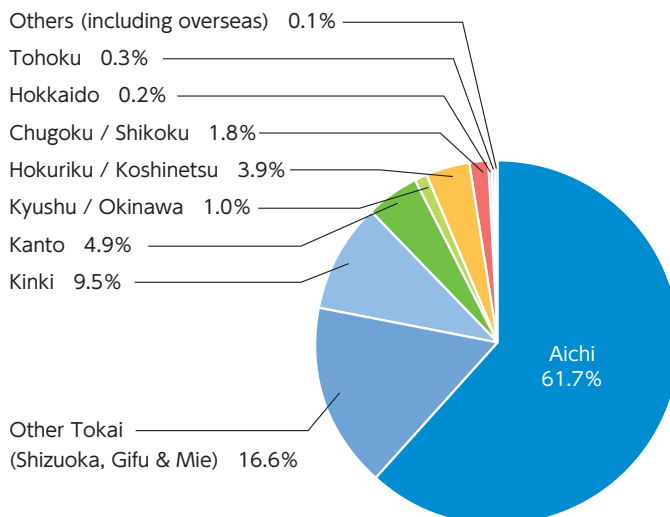

Day	Date	Weather	Number of visitors
1	June 30th (Thu.)	Clear	14,887
2	July 1st (Fri.)	Clear	18,320
3	July 2nd (Sat.)	Clear	8,673
Total			41,880

Visitors by Industry

Type of industry	%
Automobile / Parts / Equipment	30.0
General machinery	26.2
Pharmaceutical / Food / Chemical / Cosmetics	3.8
Logistics / Transportation	4.6
Electricity / Electronics	4.7
Telecommunications / Software	1.9
Other manufacturing	11.7
Trading companies / Agencies	13.1
Government / Public offices / Education	1.1
Students	2.1
Others (including overseas visitors)	5.8
Total	100.0

Visitors by Region

Region	%
Aichi	61.7
Other Tokai (Shizuoka, Gifu & Mie)	16.6
Kinki	9.5
Kanto	4.9
Kyushu/ Okinawa	1.0
Hokuriku/ Koshinetsu	3.9
Chugoku/ Shikoku	1.8
Hokkaido	0.2
Tohoku	0.3
Others (including overseas)	0.1
Total	100.0

4 Visitors' Questionnaire

How satisfied were you with your visit to RTJ2022? (N=807)

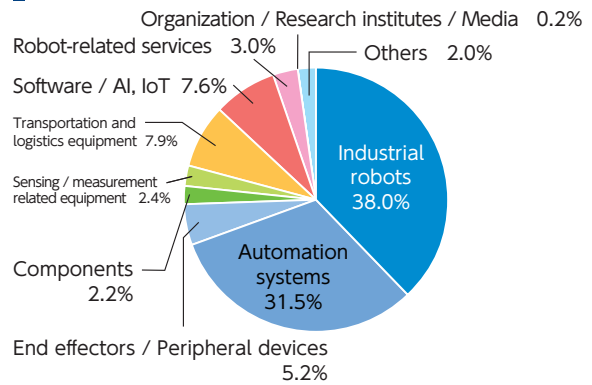

80% of visitors answered, "Very satisfied" and "Satisfied."

What is your main purpose of visiting RTJ2022?

Which products were you particularly interested in?

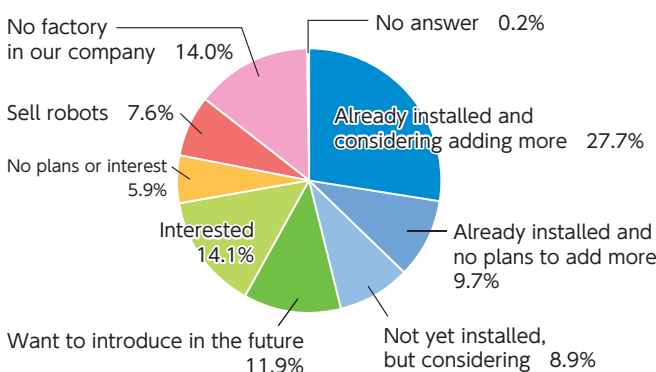

How do you get information on machinery and equipment?

How are you involved in introducing robot?

What is the status of the introduction of industrial robots?

What is your job category?

Would you like to exhibit at the next RTJ2024? (N=145)

96.1% of exhibitors want to exhibit next time.

Are you satisfied with joining RTJ2022?

What is your purpose for exhibiting at RTJ2022?

How do you measure your performance at RTJ2022?

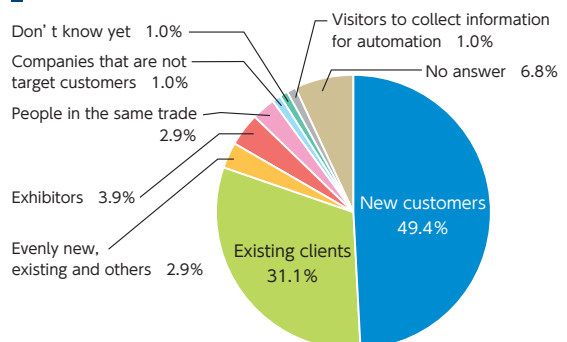

What was your overall impression of RTJ2022?

How do you evaluate the number of visitors?

What type of visitors visited your booth?

Opening Ceremony

Date&Time/June 30th (Thu.) 9:30~10:00
Place/Special Stage (Hall D)

Number of Attendance **141**

Speakers / News Digest Publishing President

Hachiro Higuchi

Aichi industrial Distributor's Association Chairperson

Takahiko Mizutani

Governor of Aichi Prefecture

Hideaki Ohmura

Ministry of Economy, Trade and Industry Director, Robotics Policy Office, Manufacturing Industries Bureau, Industrial Machinery Division

Mitsuhiro Oboshi

Japan Robot Association Chairperson

Kenji Yamaguchi

DENSO WAVE President and CEO

Takayoshi Sagara

Seminars and Exhibitions planned by Organizer

Special Session How to Use Robots in the Future

Number of Attendance **269**

Collaborative projects with "robot digest" –web magazine specialized in industrial robots and automation systems. Technologies such as artificial intelligence (AI) and autonomous mobile type robot arms that expand the limit of robots have been developed one after another. How will robots evolve and change manufacturing sites in Japan in 2030? What shall manufacturing companies work with from now to prepare for that age? Front runners who lead the industry discussed these issues in the special session.

Presenters

FANUC Executive Managing Officer, General Manager Robot Business Division

Dr. Kiyonori Inaba

YASKAWA Electric Representative Director, Senior Managing Executive Officer General Manager, Robotics Div

Masahiro Ogawa

DENSO WAVE Executive Officer Director, FA Product Business Unit

Koji Kamiya

ABB President, Head of Robotics & Discrete Automation

Shuichiro Nakajima

(Observer)
Ministry of Economy, Trade and Industry Director, Robotics Policy Office, Manufacturing Industries Bureau, Industrial Machinery Division

Mitsuhiro Oboshi

(MC) robot digest chief editor

Shu Yasumi

Date&Time	June 30th (Thu.) 13:30~14:50
Place	Special Stage (Hall D)

Co-located Event Sler's Day in Aichi

Number of Attendance **178**

The Japan Factory Automation & Robot System Integrator Association, an organization of system integrators (Slers) of robots, held an event "Sler's Day" to boost exchanges between Slers and between Slers and companies that consider the introduction of robots.

Programs

- Opening
- Tips for successful robot introduction
- Introduction of robot case studies
- Introduction of Sler Association
- Introduction of Sler companies
- Introduction of Robot SI League
- Introduction of robot-related initiatives
- Closing

Date&Time	July 1st (Fri.) 13:00~16:00
Place	Special Stage (Hall D)

Special Seminars Learning Robot Utilization Methods from New Fields

The seminar introduced the fields of activity of robots which have expanded beyond the borders of manufacturing and logistics service to agricultural work and work in outer space. "Agricultural robots" and "space robots" which were introduced at the seminar, were exhibited alongside the booths to deepen visitors' understanding of the robots.

Special Seminar (1) Agricultural Robots

Number of Attendance **203**

Presenter inaho Co-founder & COO
Sohya Ohyama

Date&Time	July 2nd (Sat.) 10:30~11:15
Place	Special Stage (Hall D)

Special Seminar (2) Space Robots

Number of Attendance **219**

Presenter Astroscale founder & CEO
Mitsunobu Okada

Date&Time	July 2nd (Sat.) 11:30~12:15
Place	Special Stage (Hall D)

Special Exhibition

Products, parts, videos, etc. concerning "agricultural robots" and "space robots," the themes of the special seminars, were exhibited in the special exhibition zone adjacent to the stage.

[Cooperation for exhibition] inaho / Astroscale, OSG

Event planned by organizer Industrial Robots Experience Zone

Cooperation: Chubu Systems Integrator Association / Itoh Denki

This is a zone to have visitors understand the charm of an industrial robots more deeply through various games. The zone had visitors feel the safety and easiness of use of an industrial robot to give hints to those who are considering introduction of it or those who are seeking a new form of introduction. On July 1st (Fri.), an exhibition tour was held for 218 elementary school students from Tokoname City, showing them the appeal of industrial robots, which they do not see in their daily life.

Date	June 30th (Thu.)~July 2nd (Sat.)
Place	Industrial Robots Experience Zone (Hall D)

- 01 Robot Training Device Experience**
Cooperation : Chubu Systems Integrator Association (BYNAS)
- 02 Direct Teaching Experience**
Cooperation : ABB / Chubu Systems Integrator Association (STARTECHNO)
- 03 Building Block Tower Match**
Cooperation : Chubu Systems Integrator Association (KONSEI)
- 04 Sui Sui Board Race**
Cooperation : Chubu Systems Integrator Association (KONSEI)
- 05 Burger Packing Competition**
Cooperation : Chubu Systems Integrator Association (STARTECHNO)
- 06 AI Robot Othello Game**
Cooperation : Ito Electronics

Official Website

We distributed exhibitor applications, information on exhibited products, and the latest news through official media. We also delivered a "News Flash" linked to "robot digest" that provided the latest information and highlights of the show. As a measure against infection of COVID-19, a pre-registration system was adopted for all visitors.
